

PRODUCT INFORMATION

UGS : P PQS 11
P-PQS 6
P-PQS 700 g

Features:

- **Biodegradable:** Environmentally friendly and naturally decomposes over time
- **Made from 100% recycled material:** Safe and sustainable for eco-conscious use
- **Non-flammable:** Helps reduce fire hazards and improves safety in various applications
- **Absorbs water and transforms it into gel:** Effective for spill management and moisture control
- Effective on various liquids
- **Absorbs up to 200 times its weight in water:** Highly absorbent and ideal for large spills
- **Easy to collect with a shovel:** Simplifies cleanup and disposal
- When sprinkled on damp modified bitumen, acts like a sponge by absorbing moisture from the granules
- Compatible with all types of roofing membranes
- Available in 700 g bottles, 6 kg pails, and 11 kg pails to suit various project sizes

Application:

AquaDry polymer absorbents are primarily used in the roofing industry to provide quick access for identifying and completing necessary repairs immediately.

NOTE:

This product is NOT intended for stopping leaks.
